

Job Posting: Junior Web Developer

(1 Full-Time Position in Northampton, MA, Rockville, MD or remote)

This is us

CommunicateHealth is a mission-based consulting company that helps public and private sector organizations simplify health information. We design healthcare services, personal health tools, public health and emergency communications, and innovative interactive media. We employ a talented team of plain language writers, designers, developers, researchers, and usability specialists dedicated to creating health information and services that are attractive and easy to use. We're committed to making a difference in the world and in the lives of our employees. Check us out at www.communicatehealth.com.

This is you

We are looking for someone with genuine enthusiasm for the presentation layer and the ability (and eagerness) to learn new skills on the job. You will be responsible for:

- Developing front-end templates for new web sites and applications
- Making refinements and new-feature additions to existing client projects
- Working closely with our team of designers on in-house deliverables
- Communicating recommendations and requirements clearly, both with nontechnical clients and with technical partners

Qualifications

- You hold a Bachelor's degree in a related field such as computer science, information design, business, communication, or the social sciences.
- You have at least 1-2 years of professional experience.
- You're able to write consistent, standards-compliant XHTML and CSS
- You have experience considering edge cases and thoroughly test your own code
- You can implement responsive templates
- You have a working knowledge of Adobe Creative Suite (for PSD to HTML conversion), and a strong knowledge of at least one major CMS (e.g. WordPress or Drupal)
- You have a proven ability to translate client needs into specific requirements

Communicate Health

- You have a working knowledge of search engine optimization strategies
- You possess great attention to detail and production schedules
- You have excellent communication skills and can work independently

Preferred

- Familiarity with usability standards or user-centered design best practices
- Interest in public health, health education, and health communication fields

How To Apply

Please send cover letter, resume, salary requirements, and 3 front-end code samples with short description of each sample to jobs@communicatehealth.com.

CommunicateHealth is committed to workplace diversity and providing equal employment opportunities for all qualified applicants and employees. We offer highly competitive salaries.

We offer highly competitive salaries and benefits based on experience.

As federal contractors, we are required to ask applicants to submit a voluntary Demographics form, at www.communicatehealth.com/company/contact/. No personnel selections are made based on this information.
